Here's the revision with numbered rows and just the case #s. I'll include in files for tomorrow's OCSP meeting. Will you email to [REDACTED] today or should I? As discussed, at the moment nothing is in CCD's queue for signature package development. [REDACTED] is meeting with RAD today.

First, need to start numbering the rows...people don't like to have to count  
Why are we putting cases done in May on the list? Also for that entry (P-18-0091), the text after the "COMPLETED IN MAY" is confusing b/c it makes it look like it isn't done  
I would not send this version...too much detail...e.g., P17-0362...options was 4/11 and it was NL...what has take almost a month to get the Deteermination done, will be the question (which I also wonder)

For all the cases "in CCD QC queue"...has RAD "signed" off that all the reports are done and QC'd?? If not, please set up a meeting of CCD and RAD to go over how we are going to organize the FY19s, the HoF and these cases for QC and finalization

If so, it is now Wed and I haven't seen any cases yet; I think the following should be on my desk this week:

P-17-0299

P-18-0031

P-18-0091
P-18-0239
P-18-0240
